Dear Impact100 DC Community,

At our 2026 Grant Awards Celebration last night, Impact100 DC awarded **three $100,000 Impact Grants to local nonprofits advancing equity, opportunity, and justice** across the DC metro area.

Together, Impact100 DC has now awarded **more than $1 million in grants to 22 nonprofit organizations** since our founding in 2021. This accomplishment truly reflects the power of community in fueling meaningful change.

We're thrilled to share the results of our 2026 Grant Awards! Congratulations to our three $100,000 grant recipients:

- **DC Greens** – The mission of **DC Greens** is to advance health equity by building a just and resilient food system. DC Greens works to create cross-sector collaborations, advance equitable, city-wide policy solutions, and partner with local residents, advocates, and organizations to make healthy food more accessible across DC, especially in underserved communities.
- **DC KinCare Alliance** – The mission of **DC KinCare Alliance** (DCKC) is to support the legal, financial, and related needs of caregivers (usually grandmothers) who raise DC's most vulnerable and at-risk children when their parents are not able to care for them.
- **School Justice Project** – The mission of **School Justice Project** (SJP) is to ensure that older, court-involved students with disabilities receive a quality education, both during incarceration and throughout reentry.

Our two additional finalists, **First Generation College Bound** and **Grassroots Health**, are phenomenal organizations whose powerful work across the DC metro area will continue to create positive impact. We encourage you to follow and support their efforts.
